The home of MHE & ASE books

With COP26 the hot topic of the day, here are a selection of resources from the Millgate bookshop to get your pupils thinking and talking about climate change

Millgate House Education are delighted to announce that *Superhero Scientists* is the 5 star winner of the Teach Primary Awards 2021.

*'What sets this book apart is its originality. It really brings the scientists to the fore, to explain their journey, their jobs and to encourage an awareness of a range of careers in the STEM world. It is a versatile resource so can be used as a whole class reader, guided reading book, or shared on a library, class or home bookshelf.'* (PSTT)

# The ASE Book of the Year Award Shortlist

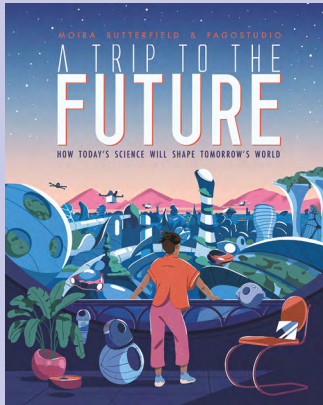

All books will soon be available from the book shop: [www.millgatehouse.co.uk](http://www.millgatehouse.co.uk)

## Trip to the Future

By Moira Butterfield

ISBN: 9781787415751

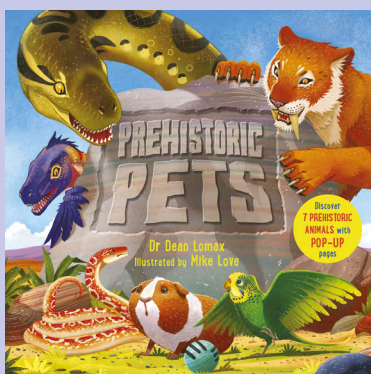

From floating cities to colonies on far-off planets, each spread will take the reader further and further from home. Stunning full-page spreads create an immersive feel, while the text paints a picture of the possibilities ahead - and some surprising achievements already

made! Did you know that you can already eat 3D printed food? Or that a group of scientists are trying to build a lift to the Moon? *A Trip to the Future* is a book for the engineers and scientists of the future!

## Prehistoric Pets

By Dean Lomax

ISBN: 9781787415331

We take a close look at our pets, from guinea pigs to cats to horses, and - as if they were furry time machines - use fossil facts to trace them back to their prehistoric animal ancestors, with

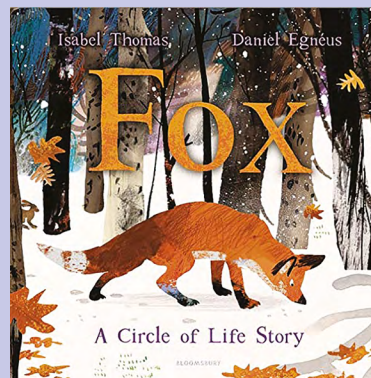

bright artwork, bags of humour and plenty of facts for readers to get their teeth into. Written by palaeontologist Dr Dean Lomax.

Incredible pop-ups bring you face-to-face with awesome ancient creatures, including a Velociraptor, a sabre-tooth cat and the giant snake Titanoboa. The pop-ups, illustrations and fun accessible text make this title perfect for engaging young readers into palaeontology.

## Fox: A Circle of Life Story

By Isabel Thomas & Daniel Egnéus

ISBN: 9781526600776

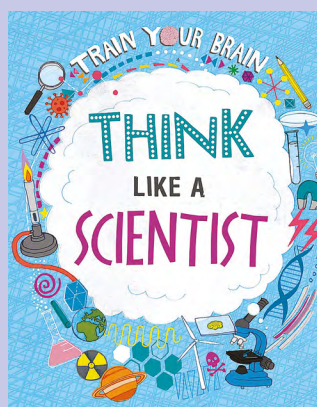

*Fox: A Circle of Life Story* unites story and science to explain this big concept to children who have lost a pet or a loved one, or who simply are curious about death and what happens after we die. Fox offers a scientific

approach to talking about death that is no less beautiful than traditional stories.

## Train Your Brain: Think Like a Scientist

By Alex Woolf

ISBN: 978152631644

Children's brains are powerful and flexible, but they need exercising and challenging to develop. In this book they will uncover the core skills that can make a good scientist great, and be encouraged to have a go at some simple activities to help them to train their brain to

become better at applying outstanding scientific practice.

By uncovering the way that real scientists look at the world and approach problems scientifically, they will be learning skills that will set them in good stead for life. Each topic is broken down into manageable chunks, so the reader can build up their skills and naturally develop their thinking.
