

Contents

Number 174 | Sept/Oct 2022

- 3 **Focus on... Marginalised scientists**
- 4 **In conversation with... Dr Alison Buxton**
Leigh Hoath talks to **Dr Alison Buxton**, developer of makerspaces and maker education in UK primary schools
- 6 **Bringing science-based anticolonial activities into schools to increase equality, diversity and inclusion**
Lara Lalemi discusses how schools can have an impact on decolonising the curriculum through active environmental science contexts
- 10 **You can't be what you can't see!**
Michele Grimshaw recounts how giving pupils access to diverse role models benefits those from under-represented groups and ensures all children see that science is a subject for everyone
- 13 **Superhero Scientists: challenging stereotypes in science**
Authors **David Allen** and **Alex Sinclair** present an extract from their book, which describes the work of scientists from a diverse range of backgrounds
- 17 **Biographies about women in science: why it is important to engage all learners**
Louise Couceiro draws on her PhD research to explain how biographies about women in science could be a valuable addition to your bookshelf
- 20 **How an inclusive approach can enhance science teaching for all**
Jane Essex champions the benefits for everyone of a more inclusive approach to primary science and offers some 'top tips'
- 23 **Possible selves: a future in STEM?**
Fay Lewis considers the benefits of helping children envisage a future in STEM beyond the classroom
- 26 **Science on Stage 2022: a joyous experience!**
Jules Pottle reflects on the Science on Stage 2022 festival in Prague, where colleagues from across Europe shared approaches to teaching science
- 29 **The rise and rise of maker education**
Kate Sutton gives some background to maker education, how it works in her school and where to find out more
- 32 **Reviews**

Cover: There are benefits for all in an inclusive approach – page 20

Primary Science

Editor **Robert Collins**

Bringing science-based anticolonial activities into school – page 6

Studying diverse role models – page 10

Reflecting on Science on Stage 2022 – page 26

The rise of maker education – page 29

Executive Editor **Helen Johnson**

ASE editorial contact **Pauline O'Connor**

Design/page makeup **Karen Dyer**

Advertising **Rebecca Dixon-Watmough**
